

Want to make a difference in a student's life in just one hour a week?
Tutor with Heart Math Tutoring!

Why Heart Math Tutoring?

- ▶ Tutors build students' confidence and math skills with every visit, while also serving as a positive role model.
- ▶ Our program is organized and effective – training, lesson plans, and staff support are provided.
- ▶ An on-site staff person is there to help you during all sessions!

“My students look forward to going with their tutor every single time. It's amazing to see all the growth they can make in one year! The tutors truly care. They are encouraging and help them build academic confidence. It is so important for our students to feel loved and confident in school, and Heart Tutoring definitely fosters that.”

-Ms. Hammond, 4th grade teacher at Sterling Elementary

What if I'm not a "math person"?

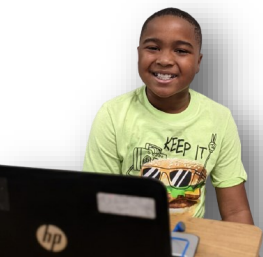

- ▶ Advanced math knowledge and tutoring experience are not required! Our students are in grades 1-5. If you can do basic math and have a passion for helping kids, you can tutor with Heart Math Tutoring.
- ▶ We supply all the tools you'll need. You will play games and other fun activities that help strengthen your students' foundational math skills.
- ▶ Get support from an on-site staff person who is there during all sessions!

What is the commitment?

Virtual

- ▶ Work 1:1 with the same students each week for 1-hour, tutoring each student for 30 minutes back-to-back.
- ▶ Volunteer tutors deliver the curriculum via Zoom using Google Jamboard.
 - ▶ Volunteers will need the ability to connect to the internet on a laptop/tablet.
 - ▶ An in-school Program Coordinator will monitor student progress and the tutoring space, while a virtual PC will be available to help you with any issues that arise.

In-person

- ▶ Work 1:1 with the same student each week for 30 minutes, or two students back-to-back for 1 hour.
- ▶ Flexible locations and times—stop by on your way to work or break away from the office at lunch.
- ▶ You can switch your day if your schedule changes.
- ▶ A Program Coordinator will be available to help you and monitor students' progress!
